Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Examiner made note that she was not the examiner who provided the Non-Final office action filed 06/30/2006. Furthermore, it was noted that the 101 rejection made in the Non-Final office action filed 06/30/2006 was made on the claim structure and not the actual content of the claim. Applicant further noted that he felt the invention contained allowable subject matter and wanted to file a preliminary amendment for Examiner to review prior to filing the formal non-final amendment, however Examiner noted the appropriate time would not be able to be spent on the search for the preliminary and advised if Applicant feels the invention has allowable subject matter, to amend the claims appropriately. As noted, an appropriate search is needed to conclude such matters.
